Bill Gianoukos
CEO and co-founder
Goodpath

Bill Gianoukos is CEO and co-founder of Goodpath. An engineer and serial entrepreneur, he previously co-founded two companies, sold to Wayfair and Salesforce. He co-founded Goodpath with Carl Nehme and Dr. Akl Fahed because he saw an opportunity to address a gap in healthcare, focusing on quality of life for people with chronic, costly conditions.

Bill lives in Boston with his wife and two children. When not working to change healthcare for the better, he is an avid Dunkin fan and enjoys exploring ways to move people and information faster.
