

**DENNIS LAMM, CISSP, CISA**

*Senior Vice President, Customer Protection  
Fidelity Investments*

Dennis Lamm is Senior Vice President, Customer Protection for Fidelity Investments. Dennis is responsible for the security of customer retirement and benefit accounts and their personal information, and oversees fraud prevention and cyber assurance. He is a founding member of the SPARK Data Security Oversight Board, co-chairs the Financial Services Information Sharing and Analysis Center (FS-ISAC) Broker Dealer Council, and has advised the Department of Labor and ERISA Advisory Council on security threats and best practices. Dennis is a 30 year+ security & IT executive; has held leadership roles in the financial services, technology, and national security industries; and has run multi-national cybersecurity consulting practices. He's a proud veteran, having served as an US Air Force intelligence officer for nine years. Dennis is a graduate of the National Intelligence University with a Masters degree in Strategic Intelligence, and of the University of Miami (FL) with a Bachelor's degree in Electrical Engineering. He's a Certified Information Systems Security Professional (CISSP) and a Certified Information Systems Auditor (CISA). Dennis has a passion for engineering excellence and building high performing, inclusive organizations and cultures.
